# 1. TECHNICAL ASPECTS

**Mr Dusan Vystavel**  
EUSA Technical delegate

**Mr. Jürg Hellmüller**  
OC Technical director

## ADAPTING TO WEATHER FORECAST

Due to the bad weather forecast for tomorrow we moved the quarantine to the gymnastic hall in the north of the change over area. This also applies for the flower ceremony. We have two units of gym halls, one for the Quarantine and one for the warm-up. VIP hosting will as planned next to the catering. Also the flow ceremony will be held there

Important is also that athletes are on time as we have a very tight schedule.

## ADAPTING TO WEATHER FORECAST

- The Quarantine is moved to the gymnastic hall in the north of the change over area.
- Also the flow ceremony will be held there
- **Important:** There is a race of the Swiss youth squads ongoing as you enter and leave the quarantine. Please watch out for them.
- Take your belongings with you as leaving the quarantine! You will be guided to the place of your luggage depot – it will be protected from rain.
- Between the two runs, while the partner of the relay is running, you cannot reenter the quarantine/building. There will be tents ready to be protected from the rain.

# SPECIAL OBJECT

- The special object at the station is only an X on the PoBe because there is no descriptive icon for a pillar.
- On the map it is drawn as a pillar.
- $x = \text{PoBe}$

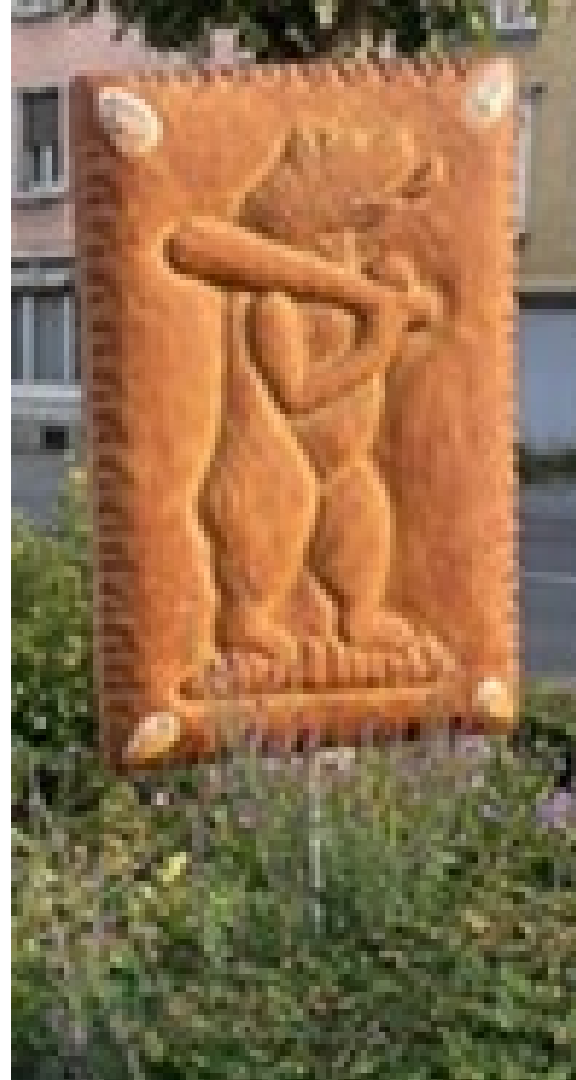

Map symbol

## SPECIAL OBJECT

- Special object (last item): Art object

# COURSE PARAMETERS

	MM 1	MM 2	MM 3	MM 4
B4 and map	2.3 - 2.4km	2.3 - 2.4km	2.7 - 2.8km	2.7 - 2.8km

# WINNING TIME AND TIME LIMIT

Expected total winning time: 60 minutes for all classes.

Time limit for all 4 legs: 90 minutes.

## SOME MORE INFORMATION

- Tents are available in the changing zone
- Call for assembly around 20 min. prior start
- Area passage in the north of the waiting area
- Runners enter change over area as colleague is coming down the stairs
- **Roads are not closed for traffic – take care when crossing the roads**
- The railway underpass is also used by departing and arriving passengers

## SOME MORE INFORMATION

- Delivery of GPS modules and vests to the quarantine, return after the finish line.
- Five minutes prior to the mass start: Instruction about the relay start procedure

# ADDITIONAL INFORMATIONS AFTER THE TECHNICAL MEETING

- Crossing railway is mandatory via underground passages.
- Control numbers on the maps: for example 5 – 126
- To be expected 10%-12% of grass
- Change of the system: There will be no mass start for the remaining runners
- Change (after remarks of athlete at the meeting): Call for leaving quarantine with luggage will be 20 minutes prior the start time. An outdoor warming will be possible for some minutes. Not in previously planned area, but in exchange area.
